Re: Statement on European Union (EU) RoHS Compliance

Dear Valued Customers:

AKMMeadville Electronics (Xiamen) Co., Ltd., and all its wholly owned subsidiaries, is a “build to print” manufacturer that builds unpopulated printed circuit boards (bare boards) that are specified by our respective customers. Unless it is being required by the customer(s) on the use of a lead-containing substance (e.g. tin/lead solder, lead chromate pigment, etc.), the bare printed circuit boards being manufactured by any of the subsidiaries would not contain any substances that are regulated under European Union Directive RoHS 2.0 (2011/65/EU as per the amendment under 2015/863) at or above the following homogeneous substance limits shown below:

Substance	Threshold	
	%	PPM
